Career Objective

Passionate Computer Science Engineering student with a strong foundation in software development, web development, and machine learning. Quick learner, team player, and effective communicator with hands-on experience in developing web applications using Python and Django. Seeking an opportunity to apply technical skills, gain industry experience, and grow as a software professional.

Education

Bachelor of Engineering in Computer Science	2023 – 2027
Hindusthan College of Technology	CGPA: 8.23
Higher Secondary Education (12th)	2022 – 2023
Sri Vidya Mandir Higher Secondary School	Percentage: 62.5%
Secondary Education (10th)	2020 – 2021
Sri Vidya Mandir Higher Secondary School	Percentage: 65.5%

Internship & Experience

Python with AI/ML Intern	July – August 2026
QuantumNique Solutions Pvt Ltd	30 Days
- Successfully completed a 30-day internship training in Python with AI/ML, gaining practical exposure to Python programming and Artificial Intelligence/Machine Learning concepts. - Worked on various projects during the internship and gained hands-on experience in applying Python and AI/ML concepts to practical problems. - Developed technical and problem-solving skills through project-based learning and practical training in AI/ML.	

Technical Skills

Programming Languages: Java, Python, SQL
Web Technologies: HTML, CSS, JavaScript
Frameworks and Libraries: Django, Flask, Pandas, NumPy
Databases: MySQL, SQLite
AI/ML: Machine Learning, Supervised Learning, Unsupervised Learning, Reinforcement Learning, Large Language Models
Tools: Git, GitHub, Linux, VS Code, Eclipse, Microsoft Excel

Technical Projects

AI/ML Fraud Detection System	Python Django Machine Learning Pandas NumPy HTML CSS
Project Demo: aiml-fraud-detection-system.onrender.com	
Individually developed a Django-based ML web application for fraud detection using data preprocessing, anomaly detection, and a trained .joblib model. Integrated the ML prediction workflow with the web application and deployed it to the cloud.	
Recruitment Management System	Python Flask HTML CSS JavaScript SQLite
Project Demo: recruitment-system-project.onrender.com	
Worked as a Frontend Developer in a team-based recruitment platform. Designed responsive interfaces using HTML, CSS, and JavaScript and collaborated with the team on backend integration.	

Certifications

• GitHub Copilot Fundamentals – Simplilearn SkillUp	2026
• JavaScript for Beginners – Simplilearn SkillUp	2025
• Bootcamp of HTML and CSS – LetsUpgrade	2025
• AI Workshop – be10x	2025
• Fundamentals of Python – Imagecon Academy	2024
• Hardware and Networking – Thiagarajar College	2023

Achievements

- Secured **1st Prize** as a team in a Paper Presentation at K.S.R. College of Engineering on Alzheimer's Disease. Contributed to research, content preparation, and presentation of assigned topics.

Additional Information

Languages: English, Tamil
Areas of Interest: Software Development, Web Development, Backend Development, Artificial Intelligence, Machine Learning
